

AVerMedia Secures Suvarnabhumi Airport, Thailand

Taipei, Taiwan, October 29, 2009- Suvarnabhumi Airport, of Bangkok, Thailand, has selected AVerMedia's AVerDiGi SA6832E Rack, 32CH Real-Time DVR, to secure the Airport of approximately 3,200 hectares. Suvarnabhumi pronounces "Su-Wana-Poom" and means "The Golden Land". According to the Royal Thai Government, Suvarnabhumi Airport is a testament of Thailand's aviation achievements and is the only air transport hub of Southeast Asia.

Since September 2006, when Suvarnabhumi Airport was opened for public use, it has vowed to guarantee the absolute safety of all its customers and employees in every corner of terminal hall.

With its intuitive intelligence video function, AVerDiGi SA6832E Rack, 32CH Hybrid and Real-Time Standalone DVR was selected to secure Suvarnabhumi Airport, such as Missing Object, Suspicious Object functions. And "by powerful remote accessibilities on PDA/cells, Central Management System(CM3000/CM3000 Gold) that controls up to 1,000 DVRs, SA6832E Rack really keeps an eye on every corner of Suvarnabhumi Airport," said the security guard of AOT (Airports of Thailand Public Company Limited).

Some other features include hybrid compatibilities, which allow SA6832E Rack supporting MegaPixel IP, Analog and PTZ cameras. With H.264 compression engine, SA6832E Rack maximizes the video quality while minimizing the file size for efficient management of HDD usage.

SA6832E Rack features

- H.264 & MPEG4 compression
- MegaPixel IP, Analog and PTZ cameras
- Hybrid Spot-Monitor & Dual-Monitor outputs
- 32CH Real-Time display and recording
- Powerful remote software integration: CM3000/CM3000 Gold, Remote Console, WebViewer, PDAViewer and SmartViewer
- POS integration and professional POSViewer
- Up to 12 configurable multi-quad TV outputs*
- Up to 32CH loop-through outputs*

*optional for AVerDiGi Display 21- Multi-Quad solution
